

SLG Full Stack Microsoft Developer 4/30/19

Job title: Full Stack Microsoft Developer

City, country: Houston, Texas, USA

### **Introduction**

Do you enjoy developing code using agile principles? Have you been looking for an opportunity to build and develop systems with an interactive team? Do you like being responsible for software that services customers?

Then we might be looking for you. We are looking for a Full Stack Microsoft Developer to join our team in Houston, TX reporting to our Senior Developer. You will be responsible for developing various web, desktop, and mobile applications.

### **What will you do?**

We have a mixture of enterprise applications and commercial software projects although we are more interested in your technical expertise than your domain experience. We use Scrum methodologies to manage our development process and follow agile principles. We are a cross-functional team, so you will have the opportunity to learn many different products and be prepared to switch hit as needed.

### **What do we expect from you?**

- Three (3+) years of progressive experience as a software developer and either a Bachelor's Degree or Microsoft Certifications OR Five (5+) years of experience
- Experience working on a Scrum team.
- Experience analyzing business requirements.
- Experience developing, testing and deploying projects.
- Experience working in a team environment and collaborating.
- Proven experience with Angular, Vue, or other JavaScript frontend framework.
- Proficiency in HTML5/ CSS3, Bootstrap, WPF.
- Ability to translate graphic design into HTML/CSS.
- Familiar with basic oriented Object Oriented Programming Concepts.
- Experience developing C# ASP.NET, Javascript.
- Familiarity with T-SQL and ORM (preferably EF).
- Familiarity with Cloud infrastructures, preferably Microsoft Azure.
- Familiarity with GIT repositories.

### **Preferences**

- Xamarin Development.
- Logistics or Supply Chain domain knowledge.
- BIRT development.
- Working with barcode reading and scanners.
- Knowledgeable about design patterns and best practices.
- Experience programming dashboards and graphical representation of data.

SLG Full Stack Microsoft Developer 4/30/19
